

Schulz Club Xtra Jacket – Measuring Chart (English)

Measuring Instructions (all in cm)

- 1) Chest circumference measured at widest point of chest & back.
- 2) Hips measured at widest point
- 3) Length of back from neckline to hip line
- 4) Sleeve length measured inside arm from armpit to cuff
- 5) Shoulder width, measure across the back from shoulder point to point
- 6) Cuff circumference

In occasion where measurement is between sizes please round up to the bigger size. Take all measurements in shooting underwear, relaxed and arms hanging loosely. On all measurements tape measure should be tight enough to remain in place on its own, not to tight to cause an indent on the clothing.
